I think that the future of our world is in the hands of foreign language teachers, translators and interpreters.

My name is Veronika. I live in Russia and I'm very proud of it. Our language

is very rich and diverse. Culture is interesting and beautiful. There are a large number of Russian works that you may like.

Many writers will make an impression about the Russian language and life in Russia. Despite the fact that Russian is a complex language, it is a very important language at the world level. Basically, learning Russian is related to politics, and people often study the language of another country as the language of the enemy. This is necessary in order to get to know and understand him better.

But I would like Russian to be taught in order to communicate with each other, make friends and get to know each other's countries by touch. 10
